

Frameworks Dental Lab 970-669-4376

Turn around times

(don't count the pick up day, delivery day or weekends or holidays)

Example: If you called on Monday for a pick up of a custom tray (3 days) you would count Tues, Wed, Thurs. So you would get it back on Friday.

Please write the Patients appointment date and time on the work order you send, this will eliminate any confusion on when the case is needed.

Morning deliveries will be delivered before noon, and afternoon deliveries will be delivered before 4pm. It is recommended you schedule your patient after these times if possible.
